

How the RP Auction Works

Participants can use RPs to bid for 1 item per auction.

1. Select from the items up for auction and click on the "Bid" button to view details of the item and to place your bid.
2. Enter the number of RPs that you wish to bid in the column provided or select "All My Available RPs" and click "Bid Now" to submit your bid. You will need to enter your ID and password if you are not logged-in yet.
3. If you wish to bid for a different item, you will need to first delete your prior bid. To delete a prior bid, go to "See Bids" under "My RP Auction Lounge" after you log in with your ID and password.
4. All bids are private and confidential. We will not disclose any bidding information. Results of each auction will be posted online once they have been finalized.
5. In the event of a tie for the highest bid, the earliest bid received by eCosway shall be the winning bid.
6. You can change your bid at any time until the close of the auction, but if you do so, the date and time of your bid will be that of when the change was made.
7. At the close of the auction, the bidder with the earliest and highest bid will be deemed the winning bidder for the item.
8. The winning bidder will be notified by email. Participants should always keep their address and other contact details at eCosway updated. eCosway is not responsible for any winning bidder's failure to receive notification for any reason.
9. The RPs pledged by the winning bidder will be deducted from his or her account.
10. You can view the winning bids by clicking on the left menu bar of the auction page (under "RP Auction").

Good Luck!
